

PURPOSE

This is a release document for eFile version 7.3.14; containing following new processes and feature:

PROCESS AND FEATURE ENHANCEMENTS (IMPROVEMENTS)			
S. NO.	MODULE/ SUB MODULE	FEATURE SUMMARY	DESCRIPTION
1.	eFile/File	Multi-language Support for Recipient Name Input for 'To' user name field.	Users can now enter the recipient's name in both Hindi and English when sending files and receipts, enhancing flexibility and accessibility. This feature allows for seamless communication and ensures that users can personalize their transactions in the language of their choice.
2.	eFile/File/Review	"Review Date" Column in Inbox Page	A new "Review Date" column has been added to the Inbox page, allowing users to view the review date of files directly without needing to open "File Details." This feature is Configurable and, by default , is set to FALSE .
3.	eFile	Set Dashboard as Default View for All Users	A new provision that allows to set the dashboard as the default view for all users within the Ministry (instance). This ensures a consistent and streamlined experience for users, as they will always land on the dashboard upon logging in the File Management System. This feature is Configurable .
4.	eFile/File	Restriction on Closing Files with Active Review	A new feature has been introduced to restrict files with an active review from being closed. This ensures that files under review are properly managed and cannot be prematurely closed, maintaining the integrity of the review process.
5.	eFile/File/Receipt	Alphabetical Display of External Departments	When sending files or receipts and selecting the "External" radio button, a list of all external departments will now be displayed in alphabetical order. This enhances the user experience by making it easier to find and select the appropriate department.

6.	eFile/File	Instance-Level Default Translation Utility Configuration	Feature to set a default translation utility— Kanthasth or Bhashini at the instance level, providing greater flexibility and control over translation preferences.
